

NGO Management System

Making a Difference

-Hanan Alsalamah

-Sneha Malshetti

-Sushrut Tadvalkar

Problem Statement

Consider this,

You are an organization who wants to donate for a social cause but you don't know how to reach it.

NGO Management System's advent bridges the gap between the needy and the philanthropic.

Approach

- We first considered the important entities that will take part in the donation process.
- The Benefactor
- The NGO
- The target Institution
- Then we recognized supporting institution as
- The Vendor Company

Approach

- The idea is that a Benefactor can contribute absolutely anything he or she wants like, food, money, cloths, etc.
- The NGO company affiliated to these Benefactor companies has also adopted a few institutions under its Target institutions.
- This Application acts as a bridge between those who need and those who are willing to give.

Approach

- As this app grows with more NGOS there will be a greater network of people to help the less fortunate.
- We also help Creating and managing events for these institutuions through this application.

A large, stylized feather graphic in a light blue color, positioned on the left side of the slide. It has a central rachis with many fine barbs extending outwards, giving it a soft, ethereal appearance.

Use Cases

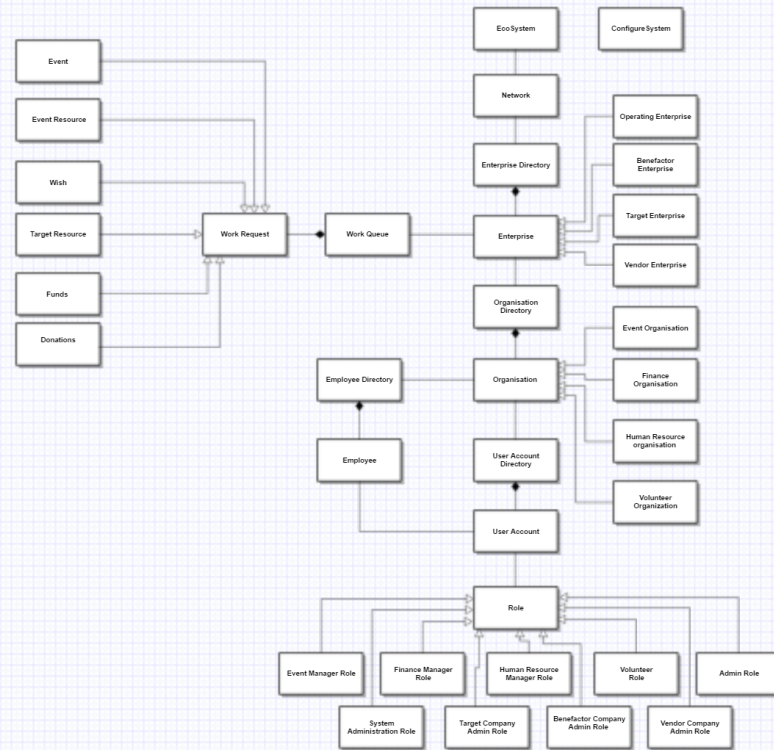

- A Special Feature is that kids at every Seasonal celebration get to request for wishes that go to the NGO and the NGO display it to the Benefactors and the target company fulfills the wishes of the Target Institutions

Use Cases

- At Any point in time the Donating company can donate any resource, which goes to the NGO and the NGO makes use of those resources to conduct events for the target institutions.
- The target company can ask for its needs and the NGOs can use their collected funds to fulfill their target companies
- The Targetcompany

Finance Manager Work Area

The screenshot displays the Finance Manager Work Area interface. On the left is a login sidebar with fields for 'User Name' (containing 'finance1') and 'Password' (masked with dots), and buttons for 'Login' and 'Logout'. A calendar widget shows 'December 2016'. The main content area has a dark blue header with the title 'Finance Manager Work Area'. Below the header, the 'Status:' is set to 'Event'. A table lists an event: 'Marathon' with status 'Proposed', sender 'event1', and required date 'Wed Dec 14 00:33:58 ES'. To the right of the table are 'Approve' and 'Reject' buttons. Below the table is a 'Check Available Budget' button with a right-pointing arrow. A 'Remarks:' section contains a text input field. At the bottom is a 'View Details' button with a right-pointing arrow. A message table at the bottom left is currently empty. The Windows taskbar at the bottom shows the time as 12:37 AM on 12/12/2016.

Manage Relationship

The screenshot shows a web application window titled "Manage Relationship". On the left is a sidebar with a login form containing fields for "User Name" (with the value "boston1") and "Password", and buttons for "Login" and "Logout". The main content area has a dark green background. At the top left of this area is a "Back" button. To its right is the title "Manage Relationship" in green. Below the title, there is a "Company Type" label and a dropdown menu currently showing "Benefactor", with other options being "Benefactor", "Vendor", and "Target". The main area is divided into two sections: "Unrelated" on the left and "Related" on the right, both in green text. Each section contains a table with two columns: "Company Name" and "Company Type". In the "Unrelated" table, the first row shows "boston2" as the company name and "BenefactorCompany" as the company type. In the "Related" table, the first row shows "boston1" as the company name and "BenefactorCompany" as the company type. Between the two tables are two buttons: ">>" and "<<". At the bottom of the window is a Windows taskbar with the "Ask me anything" search bar, several application icons, and a system tray showing the time as 12:43 AM on 12/12/2016.

Event Manager Work Area

The screenshot displays the 'Event Manager Work Area' web application. On the left, a sidebar contains a login form with fields for 'User Name' (containing 'event1') and 'Password', along with 'Login' and 'Logout' buttons. Below the login form is a calendar for December 2016, with the 12th highlighted. A 'Message' dialog box is open, showing event details: 'Marathon', 'Run for a good heart', and 'Boston'. The main content area has a red background and features a table with columns: Name, Sender, Requested Date, Status, and Changed. Below the table are buttons for 'Add Event', 'View', 'Request Event Resources', and 'Delete'. A small table at the bottom shows a resource request for 'food' on 'Mon Dec 12 00:3' of type 'Event Resources'. The Windows taskbar at the bottom shows the time as 12:47 AM on 12/12/2016.

Manage Donations

The screenshot shows a web application interface for managing donations. On the left is a sidebar with a login section containing fields for 'User Name' (with the value 'benetochor1') and 'Password', and buttons for 'Login' and 'Logout'. The main content area is titled 'Manage Donations Screen' and includes a 'Back' button. At the top of the main area is a table with columns: Title, Company Name, Donation Type, Amount, Date, and Status. Below this is a form for adding a new donation with fields for 'Donation Name' (containing 'December months donation'), 'Donating to' (a dropdown menu with 'boston01' selected), 'New Type' (a text input), 'Donation Type' (a dropdown menu with 'Food' selected), and 'Amount' (a text input with '50'). There are 'Add' buttons next to the 'New Type' and 'Amount' fields. Below the form is a table with columns 'Resource' and 'Quantity', containing two rows: 'Money' with '2000' and 'Food' with '50'. To the right of this table is a 'Remove' button. At the bottom of the main area is a 'Submit' button. The Windows taskbar at the bottom shows the time as 12:51 AM on 12/12/2016.
